2. (Internal Use Only - JMM) Met with Jim Woolsey and Jack Ticer, Senate Armed Services Committee staff, who told me that according to their information the Senate has unanimously agreed to limit debate on the Colby confirmation to three hours of which Senator Symington will take one hour, followed by Senator Hughes who is expected to oppose, Senator Kennedy whose position is unknown, and Senator Thurmond who is expected to support. Woolsey said he understands Senator Proxmire is not planning to seriously oppose the confirmation.

STATINTL

3. (Internal Use Only - JMM) Ralph Preston, House Appropriations Committee staff, informed me that Representative William Minshall (R., Ohio) is anxious to tour [redacted] during the upcoming recess and would like me to accompany him.

4. (Confidential - JGO) Met with Chairman Lucien Nedzi, Intelligence Subcommittee, House Armed Services Committee, and briefed him on today's Jack Anderson article noting that the entire operation was one controlled by MACV. I told him also that although the final paper work has not been completed, the present plan is to withdraw our request for approval of the sale of SAT from the Civil Aeronautics Board and to liquidate the activities. Nedzi thanked me for the information and seemed to feel that this is a satisfactory conclusion to the problem.
